

RESERVES & INVESTMENT POLICY

**Issued: October 2016
Last Reviewed: July 2018
Next Review Due: July 2019**

Reserves Statement

Bradford Diocesan Academies Trust (BDAT) has established a reserves policy to protect its activities by providing a financial comfort zone against an unpredictable environment and to make sufficient provision for future cash flow requirements and capital procurement. The policy also provides the framework for future strategic planning and decision-making. The development of an effective reserves policy will restrict the impact of any risk upon the continuing operations of BDAT.

The reserves policy and the establishment of ranges is based upon an annual risk assessment of the operating environment, as well as having a due regard for the nature of future activities undertaken by BDAT for its beneficiaries.

Types of Reserves

Unrestricted Reserves

Unrestricted Reserves are derived from income funds, grants or donations that can be spent at the discretion of the trustees and trustees in furtherance of any of BDAT's objectives.

If part of an unrestricted income fund is earmarked for a particular project it may be designated as a separate fund, but the designation has an administrative purpose only, and does not legally restrict the trustees' discretion to spend the fund. Unrestricted Reserves will be achieved through operational efficiencies and any trading activities undertaken by BDAT.

Unrestricted Reserves are generally defined as funds held after excluding:

- Endowment funds (permanent & expendable);
- Restricted funds; and
- Funds that can only be generated on the sale of fixed assets used for charitable purposes.

Restricted Reserves

Restricted Reserves may be restricted income funds, grants or donations that are spent at the discretion of the trustees and trustees in furtherance of some particular aspect(s) of the objects of BDAT; or where the nature of expenditure has been defined by the donor; or they may be endowment funds, where the funds or assets are required to be invested or retained for actual use, rather than spent.

Restricted Reserves are only available for expenditure once BDAT has met its commitments and other planned expenditure and is in accordance with the limitations outlined in the original funding.

Restricted Reserves also are inclusive of capital items and are defined as Restricted Fixed Asset Reserves. This reserve is specifically held for capital purposes in furtherance of some particular aspect of the objectives of BDAT.

All Restricted Reserves will be generated through improved operational efficiencies and effective manpower planning and resourcing in addition to a proactive programme to identify relevant sources

of grant funding.

Designated Reserves

Designated Reserves are reserves that have been set aside at the discretion of the Trustees in furtherance of any of BDAT's objectives. Where a designation has been identified, the purpose and timing of any expenditure must be explained.

The target range for any Designated Reserve will be determined by the nature of the designation itself; the reserves will be derived from unrestricted and restricted funds where applicable.

Pension Reserve

The risks surrounding BDAT's pension liability have been taken into consideration when calculating the target ranges. The presence of a pension surplus or deficit does not constitute an immediate liability or realisable asset and does not mean that the equivalent amount is already committed or no longer available to BDAT.

The presence of a pension surplus or deficit will generally result in a cash flow effect for BDAT in the form of an increase or decrease in employers' pension contributions over a period of years. BDAT is confident that it can meet the required pension contributions from projected future income without significantly impacting upon its planned level of activities.

BDAT will create a Designated Reserve to cover the pension liability.

Management of Reserves

All reserves will be reviewed by BDAT on a regular basis and an appropriate range of options will be considered which might include releasing the funds into the revenue budget in furtherance of BDAT's objectives, assigning funds to appropriate designated reserves as may be determined by BDAT, or investing the funds to generate further income to allow expansion of BDAT's work.

BDAT has a responsibility to hold reserves that mitigate potential risks against short term reductions in funding and/or income which would financially impact the cash flow of the Trust. The level of reserves that will be held is between 1 and 2 months of BDAT expenditure.

The movement of funds to and from the reserves identified (other than movements from restricted to unrestricted) above will be at the discretion of BDAT, or the Finance & Resources Committee where delegated authority has been provided by the Board of Trustees, subject to the restrictions which will remain attached to Restricted Funds (Revenue and Capital) and their use. The movement of funds from restricted to unrestricted must be subject to obtaining appropriate consent from the original donor of the funds.

Investment Policy Statement

This policy governs the investment strategy of BDAT and all establishments that constitute BDAT. The management of charitable funds and investments will comply with the requirements of the:

- Charities Act 2016; Trustee Act 2000;
- Financial Services and Markets Act (FSMA) 2000; and the
- Charity Commission.

The charitable funds of BDAT are derived from direct government and local authority grants and these funds are defined as restricted. Additional charitable funds are generated through the operational nature of the charity's work, such as providing education, training and development; these funds are defined as unrestricted.

The trustee of these funds is BDAT, which is managed by its Board of Trustees through the Finance & Resources Committee. Therefore, there is a sole corporate body/trustee with responsibility for managing and administering the assets of the charitable funds and investments.

Policy Scope

This policy applies to all trustees and employees of BDAT; a breach of the investment policy and procedure may result in disciplinary action.

Responsibilities

Finance and Resources Committee

The Finance and Resources Committee (FARC) of BDAT has the responsibility to authorise any investments that are deemed appropriate and in line with the liquidity requirements of the Trust. The FARC is responsible for monitoring adherence to this policy, the appointment of investment advisors/managing agents, and for deciding changes between the proportions of funds invested in common investment funds and/or liquid investments (Cash Deposits).

Director of Finance

The Director of Finance is responsible for ensuring that fund managers and their staff are aware of the investment policy, and for ensuring that the policy is followed for all investments held. The Director of Finance is also authorised to withdraw and deposit funds from and into liquid investments (Cash Deposits) to meet immediate working capital requirements, subject to the existing authorisation protocols.

Aims and Objectives

The investment objectives of BDAT are to:

Achieve a long-term real rate of return, net of inflation, to provide a source of capital to meet beneficiary and operational needs without subjecting the fund to large disinvestment that could impact the ability of the fund to meet future long-term financial commitments;

Provide an income to BDAT to help maintain its operational effectiveness in the short term.

However, a total return approach will take precedence, allowing BDAT to focus on investments providing optimal performance in terms of overall return rather than investments which would provide the right balance of capital and income return. The protection of present and future beneficiaries will be a key responsibility of BDAT.

Surplus income should only be invested if there is no requirement to spend the money within 24 months of the investment.

Investment & Counterparty Risk

BDAT acknowledges that, in order to achieve an optimal rate of return, investments will be subject to a level of risk (Risk Return Relationship). BDAT will seek to adopt a prudent appetite towards risk by:

- Investing in markets where financial services are closely regulated and compensation schemes are in place;
- Adopting a suitably diversified portfolio and utilising hedged products to limit the impact of systematic and unsystematic risk;
- Avoiding speculative forms of investment;
- Investing in common investment and/or unitised funds.

Professional investment advice will be sought about the most suitable investments for BDAT and investments will be placed with suitably qualified investment managing agents.

Ethical Investment

The BDAT is mindful of its underlying principle to further the purpose of the BDAT (provision of education and the Christian ethos); that purpose will ordinarily be best served by seeking the maximum return consistent with commercial prudence. Therefore, BDAT will seek to use a combination of positive and negative criteria to influence the investment decision making process.

Positive Criteria:

- Responsible employment practices;
- Best corporate Governance practice;
- Conscientiousness with regard to human rights;
- Sustainable environmental practice;

Sensitivity towards the communities in which the business operates.

BDAT has given due consideration to the guidance issued by the Charities Commission and has recommended against any direct investment in the following types of organisation:

- Any organisation that is directly involved in indiscriminate weaponry;
- Any organisation that produces pornography;
- Any organisation where their principal business activity or focus is tobacco, gambling, or weekly collected home credit.

Monitoring and Reporting Investments

The BDAT will review the performance of the Investment Manager and the Investment Funds biannually by comparing their performance against that of competitors, average performance indicators, and the Investment Manager's adherence to the Investment Policy.

The DOF will report to the FARC on a regular basis how well the investments are performing as well as benchmarking against the financial marketplace.

BDAT's annual report and financial statements will describe the investment policy used to select BDAT's investments as well as reporting on the performance of investments.

Policy Review

BDAT board will review and publish this policy on an annual basis, ensuring that it remains accurate and fit for purpose.
