

FORMS OF TENDER POLICY

Issued: June 2016
Reviewed: August 2017
Next Review Due: August 2020

There are three forms of tender procedure: open, restricted and negotiated and the circumstances in which each procedure should be used are described below.

- **Open Tender:** This is where all potential suppliers are invited to tender. The budget holder must discuss and agree with the Finance Director how best to advertise for supplier's e.g. general press, trade journals or to identify all potential suppliers and contact directly if practical. This is the preferred method of tendering, as it is most conducive to competition and the propriety of public funds.
- **Restricted Tender:** This is where suppliers are specifically invited to tender. Restricted tenders are appropriate where:
 - there is a need to maintain a balance between the contract value and administrative costs,
 - a large number of suppliers would come forward or because the nature of the goods are such that only specific suppliers can be expected to supply the academy's requirements,
 - the costs of publicity and advertising are likely to outweigh the potential benefits of open tendering.
- **Negotiated Tender:** The terms of the contract may be negotiated with one or more chosen suppliers. This is appropriate in specific circumstances:
 - the above methods have resulted in either no or unacceptable tenders,
 - only one or very few suppliers are available,
 - extreme urgency exists,
 - additional deliveries by the existing supplier are justified.

Preparation for Tender

Full consideration should be given to:

- objective of project
- overall requirements
- technical skills required
- after sales service requirements
- form of contract.

It may be useful after all requirements have been established to rank requirements (e.g. mandatory, desirable and additional) and award marks to suppliers on fulfilment of these requirements to help reach an overall decision.

Invitation to Tender

If a restricted tender is to be used then an invitation to tender must be issued. If an open tender is used an invitation to tender may be issued in response to an initial enquiry.

An invitation to tender should include the following:

- introduction/background to the project;
- scope and objectives of the project;
- technical requirements;
- implementation of the project;
- terms and conditions of tender and
- form of response.

Aspects to Consider

Financial

- Like should be compared with like and if a lower price means a reduced service or lower quality this must be borne in mind when reaching a decision.
- Care should be taken to ensure that the tender price is the total price and that there are no hidden or extra costs.
- Is there scope for negotiation?

Technical/Suitability

- Qualifications of the contractor
- Relevant experience of the contractor
- Descriptions of technical and service facilities
- Certificates of quality/conformity with standards
- Quality control procedures
- Details of previous sales and references from past customers.

Other Considerations

- Pre sales demonstrations
- After sales service
- Financial status of supplier. Suppliers in financial difficulty may have problems completing contracts and in the provision of after sales service. It may be appropriate to have an accountant or similarly qualified person examine audited accounts etc.

Tender Acceptance Procedures

The invitation to tender should state the date and time by which the completed tender document should be received by the academy. Tenders should be submitted in plain envelopes clearly marked to indicate they contain tender documents. The envelopes should be time and date stamped on receipt and stored in a secure place prior to tender opening. Tenders received after the submission deadline should not normally be accepted.

Tender Opening Procedures

All tenders submitted should be opened at the same time and the tender details should be recorded. Two persons should be present for the opening of tenders as follows:

- For contracts up to £25,000 - two of the budget holder, the Finance Director or the Head Teacher/Principal;
- For contracts over £25,000 - either the Finance Director or the Principal plus a member of the F & GP Committee.

A separate record should be established to record the names of the firms submitting tenders and the amount tendered. This record must be signed by both people present at the tender opening.

Tendering Procedures

The evaluation process should involve at least two people. Those involved should disclose all interests, business and otherwise, that might impact upon their objectivity. If there is a potential conflict of interest then that person must withdraw from the tendering process.

Those involved in making a decision must take care not to accept gifts or hospitality from potential suppliers that could compromise or be seen to compromise their independence.

Full records should be kept of all criteria used for evaluation and for contracts over £25,000 a report should be prepared for the Finance Committee highlighting the relevant issues and recommending a decision. For contracts under £25,000 the decision and criteria should be reported to the Finance and Audit Committee.

Where required by the conditions attached to a specific grant from the DFE, the department's approval must be obtained before the acceptance of a tender.

The accepted tender should be the one that is economically most advantageous to the academy. All parties should then be informed of the decision.
